## CELL PHONE POLICY

While cell phones have become almost a necessity of modern life, there are times and places when they are intrusive and bothersome. To reinforce courtesy that most of our members already follow, the Board of Directors adopted the following policy:

- I. Cell phones on West Lake Country Club grounds may be used on silent ring (vibrate mode) only.
- II. No calls shall be made on a cell phone while in the lounge, grille, dining room, ballroom or private dining areas inside the clubhouse. If you receive a call in these areas, or you wish to make a call from the club, please excuse yourself to a patio, locker room, hallway or other private location.
- III. On the golf course, no cell phone conversations shall slow or interrupt the speed of play or bother other players.

Thank you in advance for observing these courtesies for cell phone use.

## SUPERINTENDENT'S REPORT

We saw most of our turf growth come to a close during November. Color remained good on greens, collars and collection areas. Fairways also held their color in spite of several frosts. Rough areas, as is always the case, lost most of their color during the first few frosty mornings. Color enhancement procedures on greens are scheduled for the early part of this month. This is about 2 weeks later than past years due to the color maintained through Thanksgiving.

Overseeded areas have done well at the practice facility and Par 3 tees on the course. All areas have gone through a series of H.O.C. changes and are now at their normal height. Clipping yields have been good and the stand on overseeded tees is very good.

Leaves and pine straw became a daily focus this past month. It usually takes 5-6 weeks for the majority of it to get to the ground. There will be a lot of noise and distraction associated with our clean-up efforts. We appreciate your patience as we strive to provide you with the cleanest playing conditions possible.

As we close out 2006, our department would like to express gratitude to the members of our Grounds Committee, Board of Directors and membership for the resources and opportunity to care for the grounds at West Lake. Happy Holidays!

Joe Durden, Superintendent

## Tripp's Tips:

**Turfgrass:** Warm season turfgrasses such as Bermuda, Zoysia, and Centipede will be going dormant soon. If you have over seeded your lawn you need to apply one inch of water per week. Remember keep removing tree leaves or debris from the turf area to insure germination of seed. If leaves are left unsightly bare spots will occur. When the lawn becomes established, water only when necessary to prevent the ryegrass from wilting. Fertilize ryegrass after the second mowing. Use a complete fertilizer such as 16-4-8. Fertilize with 1 pound of nitrogen per 1,000 square feet.

**Annuals and Bedding Plants:** Allow perennials to go dormant so they can tolerate the winter weather. Good rule of thumb, if the perennial looks dormant give it another week before cutting it back. If you have not added mulch to perennials now is the time to do so. Mulch at a 2-inch depth. This will help conserve soil moisture and protect the root system from the winter weather. Keep new plantings as well as established gardens watered if the weather is sunny and windy. They tend to dry out quickly in this type of weather. Also, clean up the dead leaves from around perennials. If left on the ground, leaves can harbor disease and provide insects a place to overwinter. Your pansies, violas, kale, and ornamental cabbage should be in the ground. Remember annuals should be planted allowing at least six weeks before the first expected freeze to help them get established. Keep an eye on the water needs of annuals. Check the soil for moisture; don't wait until the plants show wilting to start watering. Use a complete fertilizer such as 10-10-10 if the plants have begun to grow. This will encourage establishment and flowering.

**Trees and Shrubs:** Prune any branches that are dead, diseased, or broken. Keep a watchful eye out for spider mites, whiteflies, and bag worms. Apply insecticides such as Sevin, Dursban, or Orthene to prevent damage from aphids and spider mites. Inspect Arborvitae and Juniper for small cone-shaped bags. They resemble a hornets nest but much smaller. The nests are about the size of a half dollar. The only control is to inspect and remove all the bags you find. If there is any evidence of Scale on shrubs, spray with Dormant Oil in late fall and again in early spring. Do not fertilize trees or shrubs. December 15th, depending on temperatures, is the cut off date for new plantings. Both trees and shrubs can be planted up to this date. Remember to make the planting hole only as deep as the rootball but make it at least two to three times the diameter of the rootball.

Thank you,  
Tripp Williams  
Horticulturalist

This is it Ladies. With the holidays closing in we know you need some relief. So come on out and smack some tennis balls to help relieve that holiday stress. This is all for fun no pressure at all. Please call the Pro Shop to sign up for this no hassle, get me out of the house event!

## Men's Night Out December 21st

It's so casual, just let us know you are coming and we handle the rest. Depending on how many folks sign up, we will figure a format that lets you play with as many different people as possible. What's easier than that, besides being slack and staying home and watching the tube? Things are picking up with more players getting involved in either leagues or scheduled fun events. One of those people could be you. Come join us this month.

## CSRA Ladies' Jumpstart Clinic

On January 2nd – 5th we will be conducting a week long clinic for all of the ladies who want to get a jumpstart for the upcoming CSRA season. As a matter of fact, you can take this clinic even if you are not going to play this season. The only prerequisite is that you can play and keep score. The clinic will last from 9:00 – 11:00 each day and will cost \$60 for the week or \$16 per day. This is a good opportunity to get everyone charged up and rejuvenated for the spring season. Sign up today.
